

Wash Basin - Security Round - Wall Mounted Disabled

Models:

WB SR WM	Security Wash Basin Round Wall Mounted
WB SR WMD	Security Wash Basin Round Wall Mounted (Disabled)

Security wash basin designed in Australia by Stoddart Manufacturing withstands the heavy demands of institutional life with intrinsic safety features to ensure the avoidance of injury.

Pleasing aesthetics also make it a popular choice for use in public places where vandal resistance is a priority.

Features & Benefits;

Robust 304 grade stainless steel, hand polished to brushed finish for good looks and long service life.

Large diameter, one-touch button mounted on left side for 10 second timed hand wash.

Watermark approved valve to safety designed domed water spout

Round bowl stainless steel sink with tamper proof waste for added security.

Fully pre-plumbed and ready to install via single mains connection to minimise on site labour.

Totally enclosed with security shroud with no sharp corners to ensure safety and prevent access to plumbing and underside of bowl.

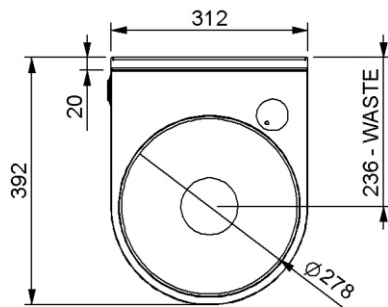

Wash Basin - Security Round - Wall Mounted Disabled
